

COVID-19 (Coronavirus) and Unemployment Insurance Benefits for Employers

Questions and Answers

Question 1: We may experience a shut-down or layoff in response to the coronavirus. What do we need to consider?

Answer: If your business is considering a major layoff or shut-down, Iowa Workforce Development's Dislocated Worker Program staff can help guide you through what will be a difficult process for your company and a difficult time for your employees. Our Rapid Response Team can help ensure compliance with federal regulations that apply to mass layoffs, and can provide a variety of services for your employees.

Question 2: We may need to reduce work hours; what options do we have?

Answer: Employers experiencing a slowdown in their businesses or services as a result of the COVID-19 impact on the economy may apply for the Voluntary Shared Work Program. This program allows employers to seek an alternative to layoffs — retaining their trained employees by reducing their hours and wages that can be partially offset with unemployment insurance benefits.

Visit <https://www.iowaworkforcedevelopment.gov/voluntary-shared-work-frequently-asked-questions> to learn more about its benefits for employers and employees, and how to apply.

Question 3: If an employee receives unemployment benefits as a result of a COVID-19 related business shutdown, will the employer's unemployment taxes increase?

Answer: All unemployment claims filed and paid as a result of COVID-19 will have the charges waived for employers. The money paid to employees filing for unemployment insurance benefits will currently be paid out of the UI Trust fund. The Trust Fund Balance is included in determining the tax rates for employers. This means that the tax rates in the future may be affected.

Question 4: If an employee receives federal extension unemployment benefits as a result of a COVID-19-related business shutdown, will the employer be charged for those benefits?

Answer: No, any benefits beyond the normal unemployment insurance benefits that are available in Iowa will not be charged to an employer.

Question 5: Can an employer require a worker to stay home for the COVID-19's incubation period?

Answer: Yes. The employer can require an employee to stay at home for the 14 day isolation period if they have traveled abroad or had contact with someone who visited an affected region. The employer should attempt to provide paid leave if that is not already available to their employees. If that is not available, your employee will be eligible for unemployment insurance benefits.

Question 6: If I have 25 employees and need to do a temporary shutdown, do we need to file a WARN notice?

Answer: No. An employer only needs to file a WARN notice if they intend to shut down permanently. In a temporary layoff, a WARN notice would not apply.

Question 7: Do I need to pay out paid leave to my employees that are unable to work as a result of COVID-19?

Answer: No. This requirement has changed as of March 30, 2020. Employees can use their leave if they wish to be paid a full wage, but this is no longer a requirement by Iowa Workforce Development.
