9:20 am  IWD Update – Cory

UI Benefits: State Identification Data Exchange System (SIDES)-employers may move to an electronic format. A pamphlet and link will be provided.

UI Tax: Employers are reminded to register with UI Tax as soon as an employee is hired. It is important to maintain appropriate records just in case your business is pulled for a random audit. These audits can be conducted electronically. Also, employers are not required to submit quarterly payments electronically. Employers may now do the following in the MyIowaUI account – request a refund, submit a wage adjustment, request a waiver, account inactivation and 940 certification requests.

UI Integrity: a new alert with Pondera has been created to detect fraudulent overpayments utilizing employers’ electronic quarterly data files. This is different that your quarterly wage file for UI Tax. Employers are encouraged to contact UI Tax to get set up to transmit this data which ultimately could reduce your tax liability due to benefit charges being credited to the employer for overpayments found and set up. Typically these have been larger employers, but we welcome any employer wanting to participate. Email UIFraud@iwd.iowa.gov

UI Appeals: Emily Chafa thanks the local ECIs for inviting her to speak on UI Appeals to ECI groups around the state. (20 in 2017) She is willing and able to speak to additional ECI groups next year on the impact of admin rule changes and recent court decisions in the UI appeals process.

National Labor Exchange (NLx): The NLx has developed a partnership with LinkedIn. NASWA and NLx are working directly with LinkedIn to create a partnership to distribute job postings on state job boards will post to LinkedIn. IWD is working with LinkedIn to develop curriculum training for jobseekers on how to effective leverage social media tools for job search.

Future Ready Iowa – The Future Ready Iowa Alliance met yesterday (October 17, 2017) and approved five recommendations to support this initiative. They are:

1. The Future Ready Iowa Last-Dollar Scholarship and Grant Program
2. Better align and expand the ecosystem of support for Iowans beginning college or career training or returning to complete, with a focus on Iowans who are low income and/or underrepresented minorities. This should include career counseling, addressing the cliff effect (low-income Iowans losing benefits, such as child care assistance, disproportionately due to a small wage increase) and other wrap-around services.
3. Expand high-quality work-based learning experiences in high-demand fields and careers for all students, particularly traditionally underrepresented students.
4. Identify and scale effective early academic and career development and delivery approaches so all students are prepared for a changing world.
5. Develop a grassroots strategy to engage the business community, sector boards, regional workforce boards, STEM regions and other regional collaborations to align with Alliance recommendations.

A link to the Future Ready Iowa website and the complete document outlining the five recommendation supporting this initiative will be emailed.

Question – Education beyond high school – does this mean certificate or degree? Not just counting 2-year, 4-year and advanced degrees. It is recognizing any nationally recognized credential.
