EMPLOYERS & PROFESSIONALS

ON-LINE REFERENCE GUIDE

December 2015

The *Employers & Professionals On-Line Reference Guide* is your starting point for planning a business activity or changing existing practices in your organization. Inside this guide you will find essential websites or tools aimed at directing your business needs or goals toward managed solutions.

Arranged alphabetically by topic, employers and professionals have at their fingertips a host of website information waiting to be explored. Topics ranging from affirmative action and economic development programs to productivity and venture capital with much in between are included to organize your search (Iowa Workforce Development's IWIN page at <http://www.iowaworkforcedevelopment.gov/career-exploration-resources> is a terrific starting point!). This edition has added and/or expanded upon many topics including "Business Assistance," "Economic Development," "Employment Diversity," "Financial Assistance," "Social Media," and "Transportation" in a continual effort to provide the user with critical, current website information. Upon discovery you will no doubt come across additional information not included in this directory that is beneficial. Whatever your needs, choose to use this guide and become a well-informed and enlightened employer and/or professional.

As a caveat, and despite periodic updates, websites do and will continue to change with little warning. In addition, this publication does not endorse any mentioned resource nor claim to be an all-inclusive or universal document. Rather, as a condensed sampling of available resources (including non-profit, for-profit, government, etc.), it serves as a starting point for the employer and/or professional. Ample beneficial information is provided. Please do not hesitate to contact myself or anyone listed in this publication with comments or suggestions. We would appreciate it. Now, let your journey begin...
