

Ergonomics

All of us could significantly reduce our risk of injury if we could understand the basic concepts of ergonomics. In this class learn the common principles of minimizing risk of soft tissue, repetitive-motion injuries in the workplace. Join this OSHA expert to discuss the risk factors of soft tissue injuries, how to safely mitigate them, and methods you can use to evaluate jobs in your organization for risks. Finally, we will discuss practical solutions for identified ergonomic risks.

Instructor:

Mike Whitmore
Compliance Assistance Specialist
Iowa Division of Labor
