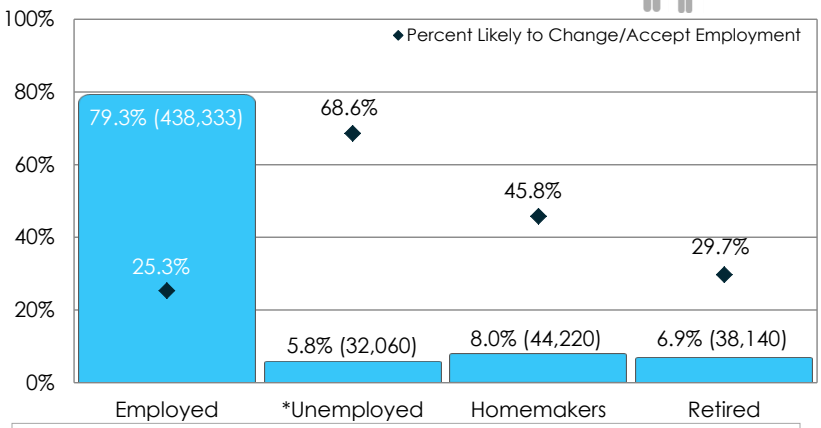
LABORSHED ANALYSIS

Clive, Waukee & West Des Moines Laborshed Analysis

A Laborshed is the area or region from which an employment center draws its commuting workers. To determine the approximate boundaries of a Laborshed area, local employers supply the residential ZIP codes of each of their employees. This Laborshed analysis addresses the workforce characteristics of the Clive, Waukee & West Des Moines Laborshed area.

Employment Status (estimated total)*



**Employment status is self-identified by the survey respondent. The unemployment percentage above does not reflect the unemployment rate published by the U.S. Bureau of Labor Statistics, which applies a stricter definition.*

Estimated Population 18-64: 552,753 (entire Laborshed area)

Estimated Number of Individuals Very Likely or Somewhat Likely to Change or Accept Employment in Clive, Waukee & West Des Moines (181,343):

- 163,165 Employed
- 5,717 Unemployed
- 6,674 Homemakers
- 5,787 Retired

Employed - likely to change employment

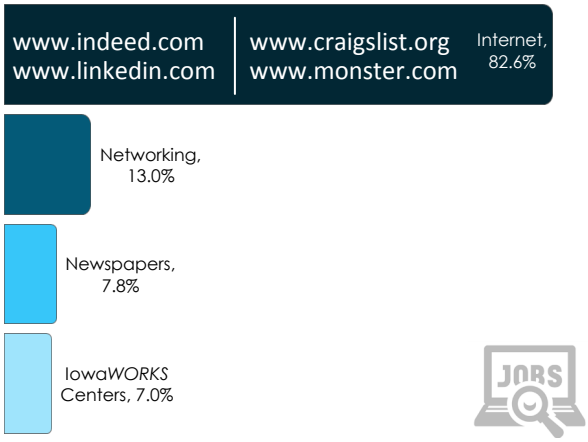
- 29.3% are actively seeking new employment
- 10.0% are working multiple jobs
- Currently working an average of 42 hrs/week
- 39.8% currently working within the professional, paraprofessional & technical occupational category followed by 15.9% within the clerical occupational category
- Most frequently identified job search resources:



Underemployment

	Underemployment	
	% Underemployed	Estimated Underemployed
Inadequate Hours	2.0%	3,263
Mismatch of Skills	4.3%	7,016
Low Income	0.3%	489
†Total Underemployment	6.3%	10,279

† Individuals may be underemployed for more than one reason, but are counted only once for total estimated underemployment.

The underemployed are individuals who are working fewer than 35 hours per week but desire more hours; are working in positions that do not meet their skill or education level, or have worked for higher wages at previous employment; or are working at wages equal to or less than the national poverty level and work 35 or more hours per week.

Employment Levels and Status by Industry
