Required Postings for Businesses in an All-in-One Format, At No Charge

DES MOINES – Both federal and state government regulations require businesses to post multiple notices at their worksites regarding various work related rules. Iowa Workforce Development has developed an all-in-one poster that covers all required state and federal postings, including minimum wage, health and safety, equal opportunity employment and others. These posters are provided at no charge to Iowa employers.

“Providing the postings in an easy to use, comprehensive format, Iowa Workforce Development can assist employers and make it easier for employees to access the information,” indicated Iowa Workforce Development Director, Elisabeth Buck.

Employers interested in obtaining an all-in-one poster, may contact one of the 55 Iowa Workforce Development Centers across the state or call 800-JOB-IOWA.
