New “Nine-in-One” Regulatory Poster Now Available at Iowa Workforce Development

DES MOINES - The new “9-in-1” poster, which includes all state and federal required labor and employment law notices, is now available at no cost to Iowa employers. The poster includes all current language, including the recently revised federal Family and Medical Leave Act.

“Iowa Workforce Development provides this all inclusive poster as a convenience for Iowa employers,” indicated Elisabeth Buck, Iowa Workforce Development Director.

The mandatory Iowa Smoke Free Air Act poster is not included in the Nine-in-One regulatory poster as the smoke free poster is designed to be displayed where customers can view the information. Additional information on the smoking lay and sample signs can be obtained at www.iowasmokefreeair.gov.

Copies of the poster can be obtained from your local Iowa Workforce Development office. To locate contact information for your closest office, visit www.iowaworkforce.org. A Spanish language poster will be available in the near future.
