

Occupational Therapists

Occupational Profile

WHAT THEY DO

Assesses, plans, organizes, and participates in rehabilitative programs that help build or restore vocational, homemaking, and daily living skills, as well as general independence, to persons with disabilities or developmental delays. Belongs to the Health Science cluster and Therapeutic Services pathways.

IS THIS FOR YOU?

Work Interests are described in the following categories (compatible with Holland's Model) by people who tend to succeed in this career:

- **Investigative** – You are a "thinker". When you have a problem, you like to analyze it and look at different ways to solve it. You like to work by yourself, and you don't like explaining your ideas to other people.
- **Social** – You are a "helper". You like being around people and helping them with problems. Socializing is fun for you.

Work Values are aspects of work that are satisfying to you. The following work values are generally associated with this career.

- **Achievement** – It's very important to you that your work allows you to use your best abilities. You want to see the results of your work and get a feeling of accomplishment.
- **Relationships** – It's very important to you that you have friendly co-workers. You would like to be of service to others without compromising your sense of right and wrong.

Aptitudes reflect a person's ability to acquire skills and knowledge. The following aptitudes are important for success in the career:

- **General Learning Ability**
- **Verbal Aptitude**
- **Numerical Aptitude**

SKILLS YOU NEED

EDUCATION & TRAINING

Education	Work Experience	Job Training
Master's Degree	None	None

A master's degree or higher in occupational therapy is the minimum requirement for entry into the field. In 2007, 124 master's degree programs offered entry-level education, 66 programs offered a combined bachelor's and master's degree, and 5 offered an entry-level doctoral degree. Most schools have full-time programs, although a growing number are offering weekend or part-time programs as well. Coursework in occupational therapy programs include the physical, biological, and behavioral sciences as well as the application of occupational therapy theory and skills. Programs also require the completion of 6 months of supervised fieldwork. All States, Puerto Rico, Guam, and the District of Columbia regulate the practice of occupational therapy. To obtain a license, applicants must graduate from an accredited educational program and pass a national certification examination. Those who pass the exam are awarded the title 'Occupational Therapist Registered (OTR).' Physical therapists need a Doctor of Physical Therapy (DPT) degree. The Iowa Board of Physical and Occupational Therapy Examiners website at

http://access.bridges.com/ext/cp/custom_state_data/iowa_licensed_occupations/29-1122.htm

provides specific licensure and support information for the state of Iowa.
